DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 12th, 2007 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on December 12th 2007 has been entered and made of record. The IDS has been considered and the claims are still found to be in condition for allowance.

Allowable Subject Matter

3. Claims 1-17 are allowed and re-numbered as 1-17.

The following is an examiner's statement of reasons for allowance:

The instant invention defines a method of analyzing successive data sets, where each of the individual data sets comprise data elements which assign data values to spatial positions. The prior art of record fails to teach the steps of: calculating weighted mean data value for each of a plurality of establishing a local intensity variation $I(x,t)$ from

data values in successive data sets in corresponding spatial positions, and localizing a region of interest on the basis of a time derivative of the local intensity variation from one or more of the successive data sets, wherein the local intensity variation in the region of interest is in conformity with a predetermined property as disclosed in claims 1, 16 and 17; and localizing a plurality of regions of interest on the basis of a time derivative of local intensity variation, wherein the local intensity variation in said regions of interest being in conformity with a predetermined property, determining maximum intensity projections (MIPs) for the respective regions of interest, and forming a feature image from differences between said maximum intensity projections as recited in claim 10.

These elements in combination with all of the other elements of the claims are not taught or fairly suggested in the prior art of record. The dependent claims are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
